

ADVENTITYA

The Crucible of Tomorrow

7.8.9 Feb

RULEBOOK

MATHS ARENA

Introduction

Teams begin their journey with a lively musical quiz in Round 1, where rhythm and teamwork take center stage. In Round 2, they dive into mystery-filled rooms, tackling challenges that demand sharp thinking and collaboration. The grand finale raises the stakes—a daring wager where teams bet their points based on confidence. Correct answers bring jackpot rewards, while missteps keep the tension high. Who will outwit the rest and emerge victorious? Let the adventure begin!

Task

In the first round, teams will be quizzed amidst high-volume music, posing communication challenges. Subsequently, in the second round, they will be sequentially sent to four rooms with varying difficulty levels to uncover answers to hidden questions. In the final round, each team will wager points on their answers, reflecting confidence. Correct answers will yield a percentage of the total points bid, while incorrect answers will lead to a deduction of points.

Registration Rules

- It is an offline team-based event to be held at IIT Ropar Main Campus during ADVITIYA.
- A team can consist of 2–3 members.
- Students from different educational institutions can form a team.
- More than one team can participate from the same institution.

Guidelines

This event consists of three rounds:

Round 1 – Sync up, To turn up

- Each team is assigned a question paper that they are required to collectively solve within a room where music will be played at full volume, bass, and treble.
- Points will be awarded based on the accuracy of the solutions to complete the task.
- In the event of a tie, the resolution will be determined by the number of correctly answered star-marked questions in ascending order of priority.
- 8 Teams will advance from round 1 in two groups of 4.

Round 2 – Logical Labyrinth

- After Round 1 of our tournament, we will have 8 teams for our second round, four teams will participate in this round simultaneously.
- The event will consist of four rooms categorized by difficulty levels: Easy(Comfort Cove),Moderate(Balanced Retreat),Difficult (Challenge Chamber), and Extreme (Ultimate Trial Chamber), each containing six questions.
- Each room will be identified by a distinct color flag, with corresponding point values.
- Teams must solve the designated question in each room to obtain the respective flag, and the team with the highest accumulated points will be declared the winner.
- Teams will progress through the rooms in ascending order of difficulty, with the team entering the Extreme room first, and proceeding to the Easy room next.
- The allocation of the first room for a team will be determined by the outcome of a dart game.
- Each team will be allocated 6 minutes for each of the initial three rooms and 8 minutes for the final room. The top two teams from each group of four will advance to the final round.
- In the event of a tie, preference will be given to the team that has successfully solved a greater number of questions in the Extreme room.
- If a team completes all questions in their final room with the remaining time, they have the option to allow two of their members to enter any of the remaining rooms in the presence of another team and attempt to steal their points.
- 4 Teams will advance to Round 3.

Round 3 – Math Risk Wager

- All the teams will participate in this round simultaneously, Each team will be given 200 points at the start of this round.
- There will be 6-8 questions, and for each question, each team is required to bid a specific amount of points to their respective answers, reflecting their confidence or certainty in the accuracy of each response.

- Teams are allowed to bid a minimum of 10 points and a maximum equal to their total available points, Each bid is required to be in multiples of 5.
- The allotted time for each question is 2 minutes.
- If a team's answer is correct, they earn the percentage of the total points bid by all teams corresponding to the amount they bid. In case of an incorrect answer, the team loses the points they bid. For example,

	Team A	Team B	Team C	Team D
Bids placed	60	40	30	30
Result	Correct	Correct	Incorrect	Incorrect

- In this round, Team A will receive 96 points, i.e., 60% of 160 (the total bid amount), similarly, Team B will receive 64 points.
- Team C and Team D will face a reduction of 30 points each from their respective team scores.
- The team with zero points after any question will be eliminated.
- The team with the highest point total after all the questions will be declared the winner.

Prizes

Winners – Smartwatch to each team member + Certificates + Medals + Trophies.

First Runner Up – Earbuds to each team member + Certificates + Medals + Trophies.

Second Runner Up – Keyboard to each team member + Certificates + Medals + Trophies.

A physical Participation Certificate will be given to all the team members who join the event in offline mode.

Prizes will be given on the spot.
